All appraisals prepared for Sandoval County shall be developed, reported, and reviewed in accordance with the NMSA 1978, Sections 61-30-1 through 61-30-24, the Real Estate Appraisers Act, 42 USC Section 4601, et seq., The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 49 CFR Parts 24.103 to 104, NMDOT Right of Way Handbook, and the Uniform Standards of Professional Appraisal Practice of 31 The Appraisal Foundation (USPAP), and the NMDOT Right of Way Handbook. Departure from applicable laws and regulations as set forth herein, in any form, shall not

be permitted, and any departure from the USPAP shall be made only as directed by NMDOT and in conformity with the Departure Provision and/or Jurisdictional Exception of said USPAP.

A Certified Appraisal in Standard Narrative format is required for all acquisitions.

An appraiser must analyze the before and after acquisition values of the remainder property in the development of appraisals for all partial acquisitions where appropriate. This shall be prepared and included in the standard narrative appraisal report for all partial acquisitions in which the estimated total compensation includes benefits and/or damages other than those that can be measured by a cost-to-cure method. In the event the acquisition involves certain site improvements such as billboards, business signs etc. that will have to be relocated or removed, the appraiser shall provide the relocation cost, the depreciated cost of the site improvements and a demolition cost. Any questions related to this condition should be addressed to the County for clarification for the specific taking.

The Contractor shall submit one electronic version (PDF) of the Appraisal Reports of each individual property appraisal on or before the due date. Once the appraisal report(s) is/are reviewed and approved, the final version (PDF and printed copies) of those reports shall be delivered to the County for inspection prior to proceeding to acquisition. Prior to approval, Sandoval County reserves the right to perform a final pre-approval review of the submitted appraisal and appraisal review reports for compliance with the applicable requirements.

All appraisals must comply with the State of New Mexico right of way appraisal regulations, policies and procedures and with USPAP requirements, with certain allowances under Jurisdictional Exception where appropriate.

The Contractor shall:

- Afford the property owner, or the owner's designated representative the opportunity to accompany the appraiser during the appraiser's inspection of the property, except as provided in 49 CFR 24.102(c)(2).
- Accurately identify and inspect the subject property/Taking Parcels and its surrounding environs; analyze the neighborhood land-use trends; research of the County Clerk and County Assessor's public records for property conveyances; research and analyze comparable property sales.
- Consider any damages and/or benefits to the remainder property resulting from the acquisition. Therefore, all appraisal reports of partial acquisitions shall contain, at the very least, a statement that the before and after values were considered even when no damages or benefits to the remainder property are found to result from the acquisition.
- Be aware of, understand, and correctly employ those recognized methods and techniques that are necessary to produce a credible appraisal;

- Not commit an error of omission that affects the appraisal;
- Not render appraisal services in a careless or negligent manner.
- Consider and analyze any current Agreement of Sale, option, or listing of the property being appraised, if such information is available to the appraiser in the normal course of business;
- Consider and analyze any current Agreement of Sale, option, or listing of the property being appraised, if such information is available to the appraiser in the normal course of business;
- Consider and analyze the quality and quantity of data available and analyzed within the approaches used and the applicability or suitability of the approaches used;
- Disregard any decrees or increase in the market value caused by the project for which the property is to be acquired or by the likelihood that the property would be acquired for the project, other than that due to physical deterioration within the reasonable control of the owner per 49 CFR 24.103(b); and
- Identify the phone numbers and addresses for property owners and state them in the appraisal reports. For those cases when the only contact made was through the mail, this is an exception and a related statement should be included.

C. Right of Way Staking

The Contractor shall arrange for project and/or individual parcel staking/flagging when requested. In some situations, in order to properly determine the effect of the acquisition on the owner's remaining property, it may be necessary to determine the precise location of the right of way line in relation to property improvements. It is anticipated at a minimum that all developed parcels as well as any Non-Right of Way (NRW) parcels will require parcel staking/flagging for assistance during the appraisal process.

D. Appraisal Reviews

All appraisals shall be reviewed in accordance with NMSA 1978, Sections 61-30-1 through 61-30-24, the Real Estate Appraisers Act, 42 USC Section 4601, et seq., The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 49 CFR Parts 24.103 to 104, the Uniform Standards of Professional Appraisal Practice of The Appraisal Foundation (USPAP), and NMDOT Right of Way Handbook. Departure from applicable laws and regulations as set forth herein, shall not be permitted, and any departure from USPAP shall be made only as directed by NMDOT and in conformity with the Departure Provision and/or Jurisdictional Exception of USPAP.

Contractors are responsible for ensuring that the requirements set forth in this section are met.

Prior to starting an appraisal review, the reviewer shall review, study and examine the project right of way maps and construction plans to gain an understanding of the proposed project. Any site improvements that are impacted by the project should be identified together with any potential damages to any remainder parcel. The reviewer shall contact the Project Engineer for project information as needed. In any event, if the reviewer is unsure, uncertain or unable to determine if any improvements are impacted, compensable or non-compensable, or if any damages might occur due to the proposed project, the Contractor shall contact Sandoval County.

In reviewing an appraisal and reporting the results of that review, a review appraiser must form an opinion as to the adequacy and appropriateness of the report being reviewed and must clearly disclose the nature of the review process undertaken.

The review appraiser shall prepare a narrative report for each appraisal/parcel reviewed. In developing an appraisal review, the reviewer must identify:

- the project in the work under review,
- the client(s) and other intended users,
- the intended use and purpose of the appraisal review,
- the work under review,
- the ownership interest,
- the date of the work under review and the effective date of the opinions or conclusions in the work under review,
- the appraiser who completed the work,
- the physical, legal, and economic characteristics of the property, property type, or market area in the work under review,
- any extraordinary assumptions or hypothetical conditions, provided that extraordinary assumptions or hypothetical conditions must be pre-approved by the County,
- the scope of work necessary to produce credible assignment results.

All appraisals must be reviewed for compliance with the right of way appraisal regulations, Sandoval County policies and procedures, and USPAP, with certain allowances under jurisdictional exception where appropriate.

The reviewer of the appraisal must make a field inspection, this includes the individual parcels under appraisal, and the comparable data considered in arriving at value.

When developing an appraisal review, a reviewer must apply the appraisal review methods and techniques that are necessary for credible assignment results. The reviewer must develop an opinion as to the completeness, adequacy, relevance, and reasonableness of both the analysis and the report under review. This includes forming opinions regarding the data utilized for analysis, the propriety of any adjustments, the appropriateness of the appraisal methods and techniques used, and whether the analyses, opinions and conclusions are reasonable. The reviewer must develop any reasons for disagreement.

Each appraisal report should be carefully check for:

- The completeness and conformance of the basic data with the NMDOT Right of Way Handbook;
- A letter of transmittal signed by the appraiser. Fee appraisers are responsible for the contents of their appraisal reports. If a staff appraiser of a contracted firm, or an appraiser subcontracted by the contracted firm prepares the appraisal report, the contracted lead appraiser is required to sign the appraisal report along with the appraiser who actually prepared the appraisal report.
- The inclusion of all required Sandoval County forms: every appraisal report must include (1) "Appraisal Summary"; (2) "Sales History and Property Owner Contact"; and (3) "Certificate of Appraiser". Sandoval County's forms contain a total of four pages and all pages must be used;
- Verification of the ownership as shown in the appraisal report as compared with the ownership shown in the title report and on the final right of way maps and construction plans;
- Minimum compensation and rounding;
- Mathematical accuracy;
- Completeness of the narrative and data necessary to clearly explain, support, and document the estimates of value and compensation stated in the appraisal report;
- The inclusion of all applicable approaches to value. If an approach has been omitted, the appraiser must provide reasoning sufficient to convince the reviewer that the approach should be omitted;
- A reconciliation of the value indications from the applicable approaches including both before and after value conclusions, if applicable, and an adequate and logical explanation for the final value estimate; and
- Verification that the appraisal does not include compensation for items which are non-compensable under New Mexico law.

The appraisal review must be conducted in the context of market conditions as of the Effective Date of Valuation in the work being reviewed. Information available to the reviewer that could not have been available to the appraiser as of, or subsequent to the date of, the work being reviewed shall not be used by the reviewer in the development of an opinion as to the quality of the work under review. However, the reviewer shall reach out to the appraiser to provide such information for additional consideration if the value is likely to be impacted, but the reviewer has no authority to demand or require the appraiser to change or amend his or her professional opinion as to value.

Prior to completion of the review, the reviewer should afford the appraiser the opportunity to revise the appraisal report(s) when they do not substantially meet the applicable appraisal requirements as set forth in 49 CFR Parts 24.2(a)(3) and 24.103 & appendixes, the NMDOT Right of Way Handbook, and USPAP.

Should major deficiencies be found, such as when the appraisal report needs clarification or contains substantial errors, the reviewer must initially attempt to resolve the issues informally. The reviewer shall meet with the appraiser, as necessary, and if efforts to resolve issues informally are not successful, the reviewer shall not approve the appraisal and shall summarize the deficiencies in writing, which the Contractor shall forward or have forwarded to the County, stating the reasons for disapproval and the efforts that had been made. The Contractor shall contact Sandoval County immediately for a final determination of whether an additional appraisal may be needed.

- Sufficiently identify the work under review, property rights, date of the work, effective date of the value conclusions and the appraiser(s) who completed the work,
- State the date of the appraisal review report,
- State all extraordinary assumptions and hypothetical conditions and that their use might have affected assignment results,
- State the scope of work to develop the appraisal review,

- State the reviewer's conclusions in one of the following formats:

REVIEWED AND APPROVED: The appraisal meets the requirements of NMDOT Right of Way Handbook and has been approved as an estimate of "just compensation" to be used for the purpose of acquisition, or

REVIEWED ONLY: The appraisal has been reviewed, but not approved. The appraisal may be deficient in one or more areas of the requirements of the NMDOT Right of Way Handbook.

- In the event the review appraiser is unable to approve the appraisal, which is the work under review, the review appraiser shall prepare a written report that identifies the appraisal reports reviewed and document the findings and conclusions arrived at during the review of the appraisal(s). The review appraiser shall also develop a reviewer's opinion of value that is believed to be just compensation for the subject property in the work under review, in which case the review appraiser becomes the appraiser of record. (USPAP Standard 1 and 2 apply.) An additional appraisal may be ordered, as needed.

- Pictures, including subject & all comparable(s), shall also be included in the review report along with the date of inspection.

Pursuant to NMSA 1978, § 13-1-191.1 (2006), any person seeking to enter into a contract with any state agency or local public body for professional services, a design and build project delivery system, or the design and installation of measures the primary purpose of which is to conserve natural resources must file this form with that state agency or local public body. This form must be filed even if the contract qualifies as a small purchase or a sole source contract. The prospective contractor must disclose whether they, a family member or a representative of the prospective contractor has made a campaign contribution to an applicable public official of the state or a local public body during the two years prior to the date on which the contractor submits a proposal or, in the case of a sole source or small purchase contract, the two years prior to the date the contractor signs the contract, if the aggregate total of contributions given by the prospective contractor, a family member or a representative of the prospective contractor to the public official exceeds one hundred dollars (\$100) over the two year period.

Furthermore, the state agency or local public body shall void an executed contract or cancel a solicitation or proposed award for a proposed contract if: 1) a prospective contractor, a family member of the prospective contractor, or a representative of the prospective contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process or 2) a prospective contractor fails to submit a fully completed disclosure statement pursuant to the law.

THIS FORM MUST BE FILED BY ANY PROSPECTIVE CONTRACTOR WHETHER OR NOT THEY, THEIR FAMILY MEMBER, OR THEIR REPRESENTATIVE HAS MADE ANY CONTRIBUTIONS SUBJECT TO DISCLOSURE.

The following definitions apply:

“Applicable public official” means a person elected to an office or a person appointed to complete a term of an elected office, who has the authority to award or influence the award of the contract for which the prospective contractor is submitting a competitive sealed proposal or who has the authority to negotiate a sole source or small purchase contract that may be awarded without submission of a sealed competitive proposal.

“Campaign Contribution” means a gift, subscription, loan, advance or deposit of money or other thing of value, including the estimated value of an in-kind contribution, that is made to or received by an applicable public official or any person authorized to raise, collect or expend contributions on that official's behalf for the purpose of electing the official to either statewide or local office. “Campaign Contribution” includes the payment of a debt incurred in an election campaign, but does not include the value of services provided without compensation or unreimbursed travel or other personal expenses of individuals who volunteer a portion or all of their time on behalf of a candidate or political committee, nor does it include the administrative or solicitation expenses of a political committee that are paid by an organization that sponsors the committee.

“Family member” means spouse, father, mother, child, father-in-law, mother-in-law,

“Person” means any corporation, partnership, individual, joint venture, association or any other private legal entity.

“Prospective contractor” means a person who is subject to the competitive sealed proposal process set forth in the Procurement Code or is not required to submit a competitive sealed proposal because that person qualifies for a sole source or a small purchase contract.
